MEMORANDUM FOR: Deputy Director for National Foreign Assessment
Chief, SALT Support Staff

FROM: Director of Central Intelligence

SUBJECT: Senate Select Committee Report on
SALT Monitoring Capabilities

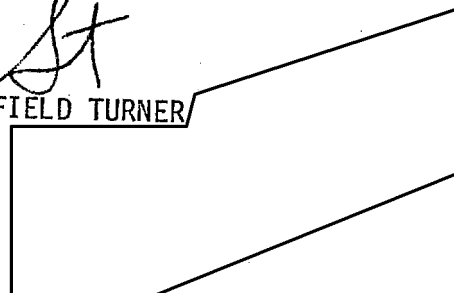

1. I was impressed by the comments on the bottom of page 6 and the top of page 7 of the Senate Select Committee's report to the Senate Foreign Relations Committee on our capabilities to monitor SALT.

25X1

3. I would appreciate your views on these points because the SSCI will very likely come back to them with us from time to time. Beyond that, I would really like to update myself on how we will apportion responsibility for our SALT II monitoring activities.
